

The Audi

S5 Coupé

Sporty elegance

The big picture? Down to the **smallest detail**

Many exterior elements add to the vehicle's elegant, sporty appeal, including the S bumper; matte titanium black radiator with matte aluminum silver inserts; wide air inlets in the frame; and the front blade in matte aluminum silver. 19-inch wheels, S sport suspension, matte aluminum silver mirrors and the door sill trim illuminated at the front with the S emblem further enhance the appeal. The matte aluminum silver S diffuser with wraparound trim; S-specific twin tailpipes in chrome; and the S rear spoiler bring life to the wide rear.

Feeling sporty? It starts on the road

The power of the Audi S5 Coupé comes from a V6 TFSI engine with 354 hp and maximum torque of 500 newton meters. It accelerates from 0 to 100 km/h in under five seconds and reaches the electronically limited top speed of 250 km/h. The quattro all-wheel drive with sport differential distributes the drive torque actively and variably between the axles. With Audi drive select and the dynamic, comfort, auto, individual and efficiency settings, you can also adapt this to your individual preferences.

Its aspiration? To meet every aspiration

The sporty elegance continues in the interior, thanks to S-specific elements like the S sport seats; standard matte brushed aluminum inlays; and a leather steering wheel in 3-spoke design with multifunction plus, S emblem and contrasting stitching. Horizontally styled elements, high-quality materials and the state-of-the-art infotainment stage create a spacious feel, which you can customize with the Audi exclusive portfolio.

ENGINE

Engine type	V6-cylinder gasoline engine with direct injection, lambda control, knock control, turbocharging and exhaust gas turbocharging
--------------------	---

Engine management	Fully electronic gasoline
--------------------------	---------------------------

POWER

Displacement	2995 cm ³
---------------------	----------------------
